TECHORAMA

What does Xamarin.iOS give me?

- Native
- Mono
- C# all the things (Obj-C)
- .NET 4.5

A little bit about iOS...

CocoaTouch

A little bit about iOS...

UIViewController

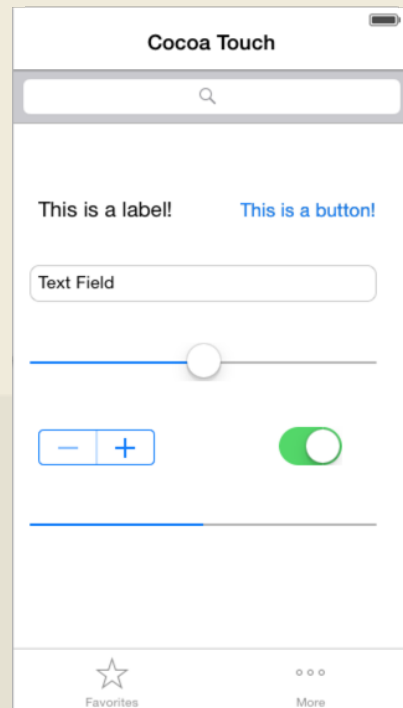

is like a

Page or Window

A little bit about iOS...

UIView
is like a
View

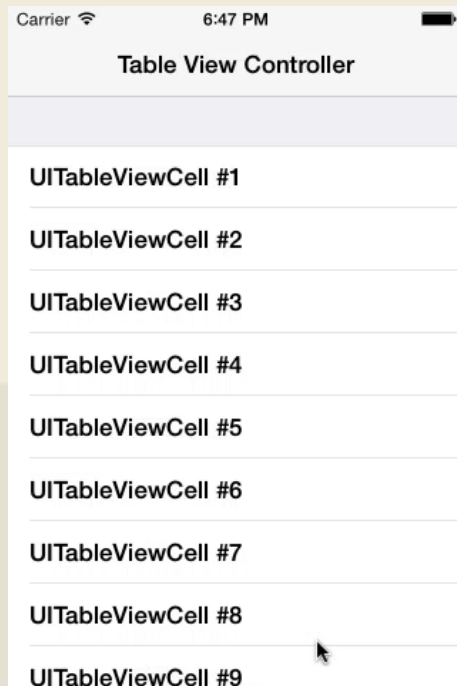

A little bit about iOS...

UITableView

is like a

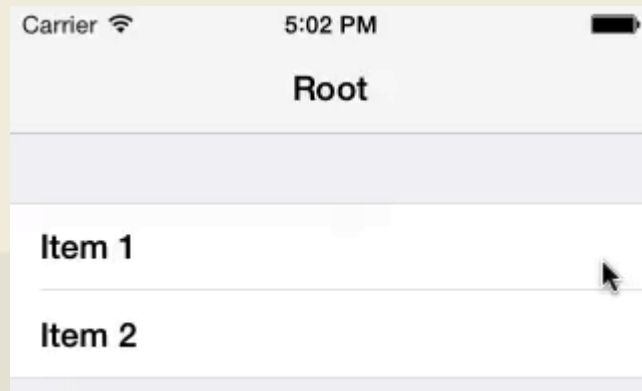

ListView

A little bit about iOS...

UINavigationController

handles the
Navigation Stack

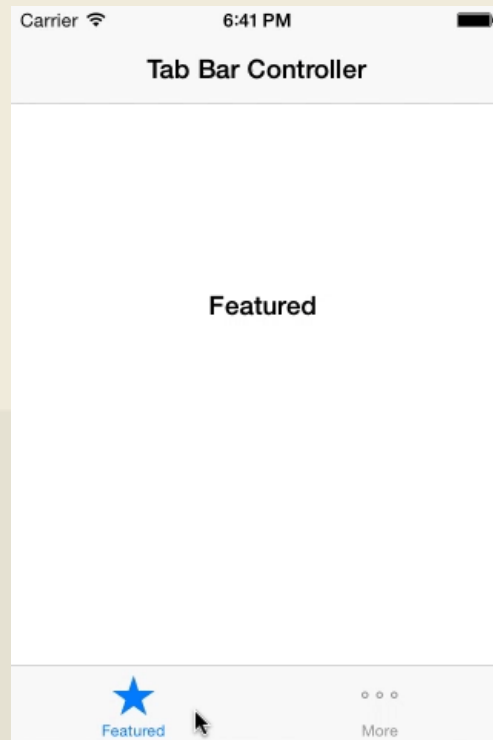

A little bit about iOS...

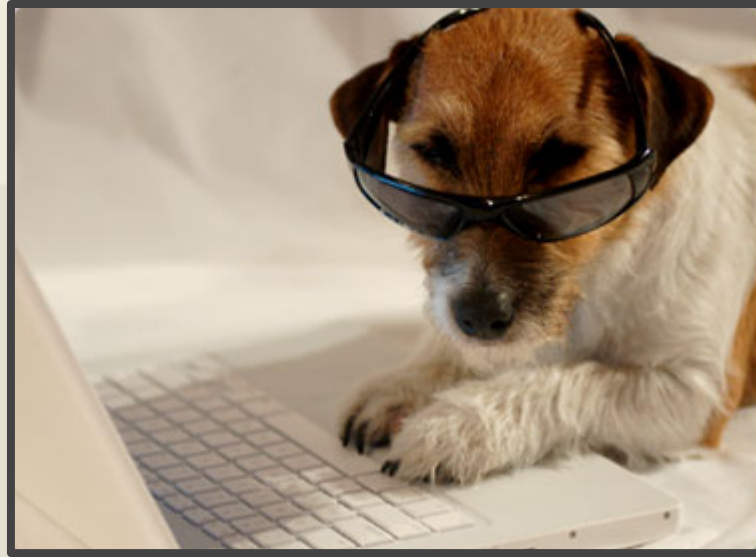

UITabBarController

handles a

Tab Bar

Let's build an app!
